The Paul Pratt Memorial Library and the Safe Harbor Cohasset Coalition Team Up
To Support September-National Recovery Month

Sunday, September 10, 4 p.m.
Paul Pratt Memorial Library Meeting Room

Come join us for a short talk given by Susan Kippen, author of The Missing Link, a spiritual guide for understanding addictive behaviors. In her book, Susan explores the use of mindfulness to identify, understand, and overcome the patterns of fragmented processing that often underlie habitual or addictive behaviors.

Susan Kippen, an author, teacher, and holistic healing practitioner of 29 years, is the owner of South Shore Natural Healing in Marshfield, MA. Her abilities as a Truth Seer have allowed her to experience the multi-layered complexity of the mental/emotional patterns in others. Over the years, she has developed a unique holistic therapeutic approach that combines: Empathic Therapy, Polarity Therapy, Hypnosis, Shamanic Healing, Reiki, Cellular Memory Clearing, and teaching. During therapy sessions with clients, she utilizes combined techniques to bring greater balance and wholeness on physical, mental, emotional, and spiritual levels. This specialized therapy has proven to be effective with a great number of clients. Susan’s professional goal is to assist individuals in seeing the truth within them, and to be unafraid of their internal experience, so that they can grow and flourish in the celebration of life. *Books will be available for purchase: cash or check only.*
